

# Qualitative

VS

# Quantitative

**At least 7 minutes**  
per fit test

**ONLY 2.5 minutes**  
per fit test

**Hoods, nebulizers, squeezes,**  
residual test agents

**LASERS!**

Tester must give  
**verbal** instructions

**Automated**  
instructions

**Subjective** and **unreliable** -  
results determined by taste

**Objective** and **reliable** -  
machine counts particles

Test results must be  
**manually entered**

Test results  
**automatically saved**

**Faster. Easier. Safer.**

**Escape the hoods!**  
**Choose quantitative fit testing.**
